EXAMINER'S AMENDMENT

[1] An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

[2] Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert A. Blaha (Reg. No. 43,502) on June 15, 2007.

[3] The application has been amended as follows:

In claim 22

Please replace the entire subject matter of claim 22 with the following:

22. A method of operating a fingerprint imager having an imaging array and a navigation array, the method comprising:

capturing with the navigation array a first navigation image at a first instant;

capturing with the navigation array a second navigation image at a second instant, the second instant being different than the first instant;

defining a movement vector having an x-component and a y-component;

defining a predetermined x unit value;

defining a predetermined y unit value;

generating a delta x and a delta y of the movement vector from the first and second navigation images;

comparing the delta x to the predetermined x unit value;

comparing the delta y to the predetermined y unit value; and

generating a strobe signal when at least one of the delta x and the delta y is greater than the predetermined x and y unit values respectively, wherein the strobe signal directs the rate at which an imaging array captures sub-images of the fingerprint in response to the rate of movement of the fingerprint.

REASONS FOR ALLOWANCE

[4] The following is an examiner's statement of reasons for allowance: The instant invention is a fingerprinting system and method.

[5] Prior art was found for and applied in the previous actions. Applicant uniquely claimed a distinct feature in the instant invention, which are not found in the prior art, either singularly or in combination. The feature is controlling of the capture rate of the imaging array based on the navigation images generated from the navigational array. This feature is not found or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

[6] Claims 1, 3-18 and 22-24 are allowed.
